### CANADIAN POSTAL HEADSTAMPS USING THE KAGRID PHOTOGRAPHIC QUADRI-LEADER™

Headstamps are the most common type of postage stamp. They are usually rectangular and are placed at the top of the letter. The quadri-leader is a special type of headstamp that is used for international mail. It consists of four small squares arranged in a 2x2 grid. Each square contains a different color and a small photograph. The quadri-leader is used to identify the sender and the recipient of the mail.
